

I am writing concerning the review of MB Docket No. 04-233 for LPFM. I currently listen to a radio station that is on a translator in my area and have benefitted from their broadcast. KLOVE in my area provides a service that it not equaled in or by any other station I have ever had the privilge of listening to. I have grown to enjoy their local broadcast and feel it would provide adverse effects in our local community should KLOVE be replaced or superceeded by a LPFM type station not supporting the values of this broadcaster. KLOVE provides support and service in our community on a level that no other station can match. KLOVE has become a permanent fixture in our community.
